+35 YEARS OF EXPERIENCE

For over 35 years, Desarrollo Bahía has led the real estate development of Panama City. With each project, he has sought to reinvent himself by investing in the future.

The company refuses to settle for traditional projects; it has a truly rich and diverse portfolio of more than 360,000m² built and another 160,000m² under construction between residential and commercial projects, cinemas, shopping centers and hotels, which make it a pioneer in the world of real estate and construction, naturally establishing new standards in the industry.
